

**BYD**

**BUILD YOUR DREAM**

# THE STORY OF BYD & FRIENDS

It all started with Dogecoin, the meme coin that became a cultural phenomenon. Inspired by **Doge**, other meme coins like **Shiba Inu** quickly followed, rallying vibrant communities. **Pepe** brought meme culture flair, while **Floki**, named after Elon Musk's dog, added its unique charm. **SafeMoon** aimed for the stars, and Baby Doge captured hearts with catchy slogans.

Amidst this bustling meme coin world, pandas were content munching bamboo. But one ambitious panda decided it was time for a new star.

Now **BYD**, the panda-led meme coin is ready to steal the spotlight and build dreams!

**BYD is built on the  
Arbitrum chain,  
providing high-speed  
transactions and  
enhanced scalability  
for a seamless user  
experience.**

# UTILITIES & FEATURES

## Deflationary Token

Decrease supply over time and potentially increase the value of each token.

## Dynamic Community

Vibrant, enthusiastic group of dreamers and meme enthusiasts sharing a vision of building dreams together in the crypto space.

## Staking

Staking your Bamboo Tokens is like planting magic seeds—watch them grow and multiply, reaping rewards as lush as the forest itself!

# BURNING MECHANISM

To maintain the token's value and scarcity, a weekly burn mechanism will be instituted, where a portion of the tokens will be systematically removed from circulation.

The exact burn percentage and schedule will be determined and shared with the community.
